

## BOTTLEMATE-712M

If you are looking for a simple and versatile solution for applying labels to bottles, cans, jars or other cylindrical objects but you don't want to spend a fortune, look no further! The BOTTLEMATE-712M is the Label Applicator you need! A quick turn of the handle is all that is required to accurately and consistently place labels in the same location on all of your cylindrical objects. With the BOTTLEMATE-712M you will be able to easily label cylindrical objects with diameters ranging from 0.3" to 8" (size of a pen up to gallon size containers).

**BOTTLEMATE-712M**  
with optional BMA-7 Arm
